To our partners

July 2024

**Price adjustments for our Metal Work range.  
New price lists applicable from October 15, 2024.**

Dear Sir/Madam,

Over the last few years, gradual product range expansions have led to discrepancies in list prices in some instances. To enable us to act with fairness, consistency, and transparency, we are adjusting the prices for our Metal Work range.

Depending on which Metal Work products you purchase from us, the impact of this price alignment can vary. That means that depending on the product mix, you might see upward or downward changes to our existing prices.

As a premium partner, RIEGLER offers you access to the entire Metal Work range. This gives you lots of options. Find out more [here](#) and feel free to get in touch with us.

The new prices for our Metal Work range will apply from October 15, 2024.  
You can already download the new gross price lists easily [here](#).

Perhaps you need a price list with your individual purchase prices? For this, you'll need to log into the [RIEGLER online shop](#) using your login data, go to "My Account" and select the "Data Manager". Click on "Individual Price List" in the "Data Selection" drop-down menu. We will send you the price list you require via e-mail from the end of August 2024.

We will send updated item-specific master data to the contact persons registered in our system as responsible for this data at your company; this will take place automatically in September 2024.

Your personal contacts in our sales department are there for you – for all your questions and concerns.  
Please feel free to contact us.

Thank you for your understanding. We will continue to put your requirements and wishes at the center of everything we do.

Kind regards,

RIEGLER & Co. KG

Philipp Wacker  
Managing Director
